Key Insights & Recommendations

- **Growth:** Revenue grew 31% over six months ($175,012 in January to $229,198 in June).
- **Hero category & product:** Computing leads at $343,969; best single product is 4K Monitor 27in ($246,816).
- **Geography:** California is the #1 state — first choice for faster-shipping offers. **Channel:** Website leads; owned channels keep the best margin.
- **Recommendation:** Push bundles over $150 to lift the $145 average order value instead of deeper discounts — margin is a healthy 37.0%.

Method

Data cleaned and checked with Python (pandas), then modelled in Excel with live-formula KPI dashboards, pivot analysis and native charts. The matching workbook (Dashboard, Data, Insights sheets) accompanies this report.

Sample portfolio project built on sample data to demonstrate the service. Client data is kept confidential and never reused.
